AFFIDAVIT UNDER 37 C.F.R. 1.131

Dear Sir:

5

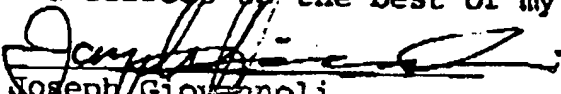

I, Joseph Giovannoli, being duly sworn hereby aver as follows:

1. I am the named inventor of the above patent application.
- 10 2. I conceived the idea and fully documented my conception no later than the summer of 1994. I enclose three documents which were generated in approximately July or August 1994. The documents are entitled Price Quote Network Project AKA Global Commerce Network (GCN).
- 15 3. The documents fully describe a centralized computer which accepts "RFQ's" and forwards the RFQ's to selected vendors as clearly shown and described. Even the details such as automated billing and financial statements being supplied are clearly shown
- 20 in the flow charts in the documents labeled "Process Flow Diagrams."
- 25 4. Additionally, the document entitled "Infrastructure Analysis and Design" clearly shows that buyers' requests are sent to "a class of vendors defined by the buyer", which describes the central filter and broadcast means.
- 30 5. In addition to the foregoing, I enclose statements received from America Internet Systems, a software company which actually coded the software for my invention under my direction. Those show continuous work being performed, at least as early as June of 1995 continuously up until the date of the filing of my patent application in February 1996.
- 35 6. From the time I assigned America Internet Systems to begin the work, we worked diligently on completion of the invention up until the patent application was filed.

40

7. I also have in my files, or know to exist, copies of various work product produced in the process of reducing the aforementioned invention to practice.

5 I certify under penalty and perjury that the foregoing is true and correct to the best of my knowledge.
